Inside this issue:

Oct meeting	1
PDC	2
Job opportunities	3
General announce-	4
IAQ	4

## Editors message

### HELP WANTED!

This year I would like to do something a little different and provide articles about many areas of the Environmental and Safety arenas. This is where you

come in. I am looking for interesting stories, insights or editorials for something you have recently read or seen.

Your story should be between 75 and 150 words in length and sent to me no later

than the fourth Monday of the month.

Save the Date

- ◆ BAESG Holiday Party
- ◆ Wednesday Dec 10
- ◆ 6:00 pm
- ◆ Embassy Suites

And back by popular demand the Marines will be representing Toy's for Tots

---

*The Bay Area Environmental Safety Group is a business league with the interest of serving the professional working in Silicon Valley and the Greater San Francisco Bay Area.*

*The BAESG was established in the early 1980's to fill a void that other safety-related associations were unable to satisfy.*

*Officers of the BAESG are committed to meeting the needs of environmental protection, occupational and public health, emergency preparedness, and safety professionals.*

*Each month, luncheon meetings are planned featuring speakers who have something to offer the EH&S professionals and the companies and organizations for which they serve.*

# NIOSH posts new IAQ topic

A new topic page on the NIOSH web site provides a focused, organized guide to resources that will help employers, employees, building managers, and others to address concerns about work-related indoor environmental quality.

The topic page is found at <http://www.cdc.gov/niosh/topics/indoorenv/>

The new topic page links to several NIOSH resources on the web that can help users develop strategic, practical approaches to establishing or maintaining good indoor environmental quality in their workplaces. The resources include:

- [“Building Air Quality: A Guide for Building Owners and Facilities Man-](#)

[agers,”](#) a manual that helps building owners and managers identify, correct, and prevent indoor air quality problems.

- [“The Building Air Quality Action Plan,”](#) a related document for successfully making good IEQ management an institutional practice.
- Texts of several recent NIOSH [health hazard evaluation reports](#) with findings and recommendations on addressing IEQ concerns at workplaces where the evaluations were conducted. The topic page also provides a link to NIOSH's searchable health hazard evaluation database for access to additional

reports.

Links to other NIOSH [topic pages](#) on related subjects such as asbestos, asthma and allergies, chemical safety, and work stress.
